What Parents & Carers Need to Know about CHAPTER ORINIE

First released in 2017, Fortnite has become one of the most popular games in the world. It currently has around 350 million registered players. Developed by Epic Games, it began life exclusively as a 'battle royale' contest, where up to 100 online player characters would fight – with weaponry including rifles, handguns and rocket launchers – to be the last one standing. Today, it features multiple modes which each offer something different (although some modes, such as 'Save the World', are only available on certain platforms).

IN-APP PURCHASES

Not all of Fortnite is free. Save the World mode, for example, can become quite costly. An in-game currency called V-Bucks is used to buy items such as cosmetics, which are not a necessity to play the game. It *can* feel like buying them is essential, however – even fór adult players. Making sure no payment methods are linked to the game's store is a good idea when children are playing Fortnite.

COMPETITIVE COMMUNITY

Fortnite isn't purely a competitive experience (some modes prioritise cooperation), but the rivalry aspect remains central. Battle Royale is an especially ruthless mode, where the last player or squad left standing wins. 0 Games can become heated, and players' desire to win can often cause excessively aggressive or "toxic" behaviour towards others – via the game's audio chat, for instance.

TALK ABOUT TALKING

Communication is key in the squad-based Fortnite modes, and children will quickly realise that talking with team-mates onlin helps to increase their win rate. It's a good idea, therefore, to cl with your child first about speaking to strangers online, trading, scammers and other potential risks. Remind them that they can always come to you for help if they run into problems online.

ENCOURAGE BREAKS

Gaming sessions can reach marathon lengths, especially when your child is on a winning streak and doesn't want to stop. Sitting in the same position for hours isn't healthy, of course, but it's an easy habit to form. Encouraging young ones to break regularly for drinks and so on will help them stay hydrated, rest their eyes and release some of the tension from competitive gameplay.

DISCUSS OTHER APPS

Games like Fortnite can lead on to third-party apps (Discord, for example) where players can join a voice, text or – in some cases – video chat about the game. Certain add-ons also let children talk with other players from their local area, which clearly presents a potential risk. When discussing Fortnite with your child, you might also want to ask them about other apps they use while playing.
