## An Amazing Fact a Day

## Climates Around The World

## Amazing Fact

Two-thirds of the people on Earth have never seen snow!

## Challenge

The weather and climate vary greatly around the world. Write the description of the different climates:

Polar: $\qquad$
$\qquad$

You could also try to find out:

- which countries never get any snow;
- which countries are always covered in snow;
- how quickly snow falls in the heaviest snowstorms;
- about languages where there are multiple words for snow.
