

Inuit Homes

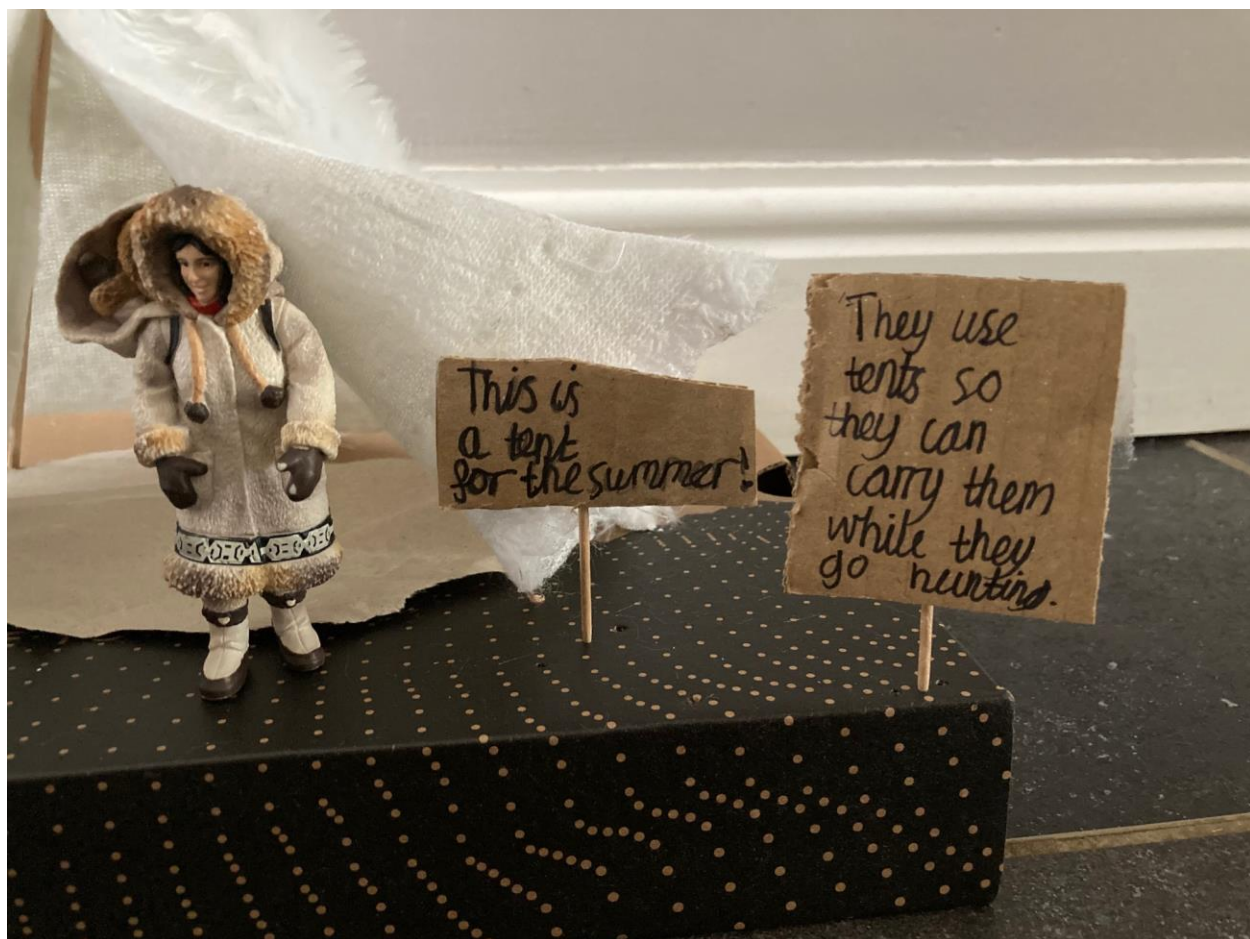

Fallon Brown

8th June 2020

I made an Inuit tent. I used a furry material so it looked like animal skin and I used mummy's sewing machine to sew it together.

They are
made of
seal or
caribou skin.

It is
called
a tupig.

This is
a tent
for the summer!

They use
tents so
they can
carry them
while they
go hunting.
